National Drug & Alcohol Facts Week: Monday, January 23rd – 29th, 2017

National Drug & Alcohol Facts Week® links students with scientists and other experts to counteract the myths about drugs and alcohol that teens get from the internet, social media, TV, movies, music, or from friends. It was launched in 2010 by scientists at the National Institute on Drug Abuse (NIDA) to stimulate educational events in communities so teens can learn what science has taught us about drug use and addiction. The National Institute on Alcohol Abuse and Alcoholism became a partner starting in 2016, and alcohol has been added as a topic area for the week. NIDA and NIAAA are part of the National Institutes of Health.

Events: Locally planned and hosted school and community events focus on providing teens the scientific facts about drugs and alcohol.

Drugs & Alcohol Chat Day: During this annual live online chat held between high school students and NIDA scientists, students from around the country ask the questions they most want answers to about drugs, alcohol, and drug use, including drug and alcohol effects, how to help friends or family that are abusing drugs, and what causes addiction. Our expert scientists give them the facts.

Partnerships: NIDA and NIAAA works with leading organizations, media outlets, and other Government agencies to spread the word about NDAFW and **SHATTER THE MYTHS**^{TM,SM}.

Please pass this information on to school personnel, family members, faith communities, and friends concerned about substance abuse.
