Pittsfield Seeking Input on Parks

Pittsfield Township (February 16, 2018) – Pittsfield Township is rolling out a new format for public engagement to obtain input on expanding amenities at its parks. The process has two components (1) Online Survey; (2) Drop-In sessions for viewing proposed project information and giving written comments. The two forums are complimentary so residents can use just one of the two forums but are welcome to provide feedback through both forums.

This public engagement process replaces a stand-alone forum scheduled for February 20th because, “as we consider making decisions based on a broad-based consensus, it is important for us to re-think our approach to accommodate the availability and preferences of our constituents,” noted Pittsfield Township Supervisor Mandy Grewal.

The projects for which Pittsfield is seeking public input are: (1) Development/preservation at the newly acquired public park at Waters/Oak Valley Roads; (2) Bandshell for family-friendly entertainment and eco-education at Morgan/Thomas Roads. Detailed information on these proposed projects is available at: www.pittsfield-mi.gov/engage.

The online survey will remain open through March 9th. Drop-in sessions to obtain information and provide written feedback are available as follows:
