APPLICATION FOR IRRIGATION METER

Sprinkling meter installation requirements for Pittsfield Charter Township Utilities Department:

1. Sprinkler systems must be properly equipped with backflow prevention and/or vacuum breakers as applicable. Residential meters are limited to 5/8".
2. Sprinkler Systems with automatic controllers must have a rain detector installed.
3. Automatic sprinkling is recommended to be done between 10:00 PM and 6:00 AM
4. A separate plumbing permit is required. All plumbing must be complete. The plumbing inspection must be approved verifying the above requirements before the meter will be set. Meter installation guidelines are available from the Utilities Department.

Applicant's Name _____

Service Address _____

Phone Number (____) _____ - _____

Contractor's Name _____

Anticipated Installation Date _____

The 2003 Michigan Plumbing Code, Section 312.9.2 and the 2003 Michigan Residential Code, Section P2608.4 require all backflow prevention devices be certified by a third party certification agency. Annual inspections shall be made of all backflow prevention assemblies and air gaps to determine whether they are operable.

I hereby certify that I am the owner of the above referenced property, and that I have read, understand and will comply with the above conditions with regard to the installation and use of this sprinkling meter. I further acknowledge that this meter may be removed, and further requests for sprinkler meters denied, if this use is found to be in violation of the above conditions. Meters must be installed within 15 business days from the date the meter is purchased. Failure to install will result in a \$75.00 flat rate charge per month and/or service shut off
